1. I approved of [REDACTED] going to the Regional Security Officer's Conference [REDACTED] in early October. (I also told Shef that I had no objection to Bob taking his wife along. Of course, this would be at his own expense.)

2. [REDACTED] was in to brief me on the National Defense Executive Reserve Program scheduled for 22 October. (I will seek policy guidance on this matter at the Executive Committee Meeting on Monday, 10 September.)

3. [REDACTED] as one of his last official acts as Chief of Support, FE Division, was up to talk with me about [REDACTED] assigned car. I told Bill that I had an understanding with Dick Helms that we would not take Des' car away from him without Dick's permission. (The real problem is whether Dick is going to be willing to take the position that Des is unique among his Division Chiefs and that his problems require the full-time assignment of a car and chauffeur whereas the others do not.) In this connection, I also instructed [REDACTED] of the Office of Logistics, that they should not take Des' car without my permission.

4. Dick Helms called me to say that he understood that the Deputy Director (Research) wanted to take over a number of the COMINT slots, as well as the ELINT slots, from the Office of Communications. He said that he was unalterably opposed to this. I assured Dick that I would not concur in any such proposal and that if such a proposal should come from DD/R I would get in touch with him without delay.
